

LOW-ENERGY GAME

[10 min]

Animal Assembly

Supplies

- upbeat music (optional)
- music player (optional)

Tips

- If you used the Music Video block, consider repeating songs from today's lesson during the game. You can find the downloadable album [here](#).
- While kids are creating statues, it's hard for them to see what other groups have created. If you have a small number of groups, consider taking phone photos of statues to show kids. But don't post the photos to any social media site without parental permission!
- If you have four or more groups, designate one group as "observers" for each round, letting them enjoy seeing the creations of their friends.

Pose Like Animal Sculptures

Say: **Today we're talking about how God is the Creator. Let's see what insights we can gain about God's creation by doing a little creating ourselves.**

- Form groups of two to four kids.
- Explain that small groups will use their creativity—and their bodies—to pose like an animal within 60 seconds. Every group will create the same animal.
- The only rule: Everyone in the group *must* be part of the statue.
- Animals to call out could include elephant, spider, two-humped camel, eel, vulture, kangaroo, cobra, and flamingo.
- If you'd like, play music as kids pose.

Talk About It

Ask: • **What was most fun about creating your sculptures?**

Say: **Creating something—a poem, song, model airplane, cupcake—can be lots of fun.**

Ask: • **Call out things that you enjoy creating.**

- **Do you think God had fun while he created the world?**

Explain.

Say: **The Bible doesn't say if God had fun creating the universe, but it seems like he must have because he created, created, and then created some more. God is the Creator—he**

created everything!
