

# Urpity Fish Instructions

**1.** Use a thumbtack to poke a hole in the bottom of your cup.

**2.** Cut a piece of string to be roughly 2 feet long.

**3.** Poke the string through the hole in the cup.

**4.** Cut four slits around the rim of the cup, evenly spaced.

**5.** Stretch rubber bands over the cup, sliding them through the slits to make a plus sign.

**6.** Tie the end of the string that's inside the cup to the center of the rubber bands.

**7.** Staple the rim of the cup above the rubber bands to close up the tops of the slits.

**8.** Decorate your cup to look like a fish. To make scales, you can cut small half-circles out of construction paper and tape them in rows around your cup. You can also add fins and a head with googly eyes.

**9.** Draw a Jonah figure on your ping-pong ball using a permanent marker.
