

LOW-ENERGY GAME

[10 min]

I Spy

Talk About God's Creation

Say: **Today we're learning that God is the Creator. He made so many wonderful things, including us. We're God's best creation. And we're all different and special!**

Share something special about *you*. Maybe you love cheesecake, you have two brothers, or you can run really fast.

Ask: • **Tell me something special about *you***. Kids may share physical characteristics, abilities, or favorite things.

Play I Spy

Say: **Let's play a game where we look for things that make our friends different and special.**

- Form leader-led groups, and help kids sit in a circle with their group and their leader.
- Encourage each leader to pick a child in their group to describe. Leaders can say: **I spy someone God made who...** [something about the child's appearance; for example, "is wearing a green shirt"].
- Leaders can continue describing the child until someone in the group guesses who it is.
- After kids guess who's being described, invite kids to take turns being the one to describe another person in the room while the other children guess.

Say: **God made so many amazing things. God is the Creator. He made all of our wonderful friends, too!**
